INBAR WEBINARS

Bamboo for Poverty Reduction and Livelihood Development

Green Economy Development in Mountain Regions with Bamboo

Dr. Francisca Ely
Associate Professor,
Universidad de Los Andes,
Venezuela

Mr. S.T.S Lepcha
Vice Chairman,
Uttarakhand Sustainable
Forum, India

Prof. Zhu Zhaohua
Former Deputy Director
General, INBAR, China

Mountainous regions are rich in natural resources and play a significant role in providing water, food, energy and in maintenance of biodiversity and ecosystem. Mountain dwellers are among the poorest and most disadvantaged, surviving in most complex and fragile ecosystem. This session will showcase the roles of bamboo for integrated mountain development (livelihood and environment) by introducing several cases from China, the Himalayas (India) and the Andes (Venezuela).
